PROFILE

I have more than 6 years of deep experience in web and mobile development. I have always been researching and solving problems to satisfy customers and contribute to the achievement of our development team. One of my greatest strengths is that I have a strong basic knowledge of computer engineering, so I have a very high problem solving ability. I have been in charge of network management in several companies before, and now as a freelancer, I am developing web sites with GIS(ArcGis , ArcGis Pro) , Three.js , react and vue, which are the main technologies in web development, and apps with react native.

EXPERIENCE

SOFTWARE ENGINEER - MAR.2018 – JUN.2020
CLOVER INTERNATIONAL – United state New York , Hongkong
I was involved in the internal and external monitoring system development team of the company, built web communication network, and developed frontend by default. In addition, during this period, I acquired knowledge of a wide range of web technologies such as web protocols, network management knowledge, network security, DB design and construction, and information and communication networks.

SYSTEMS SOFTWARE ENGINEER - JAN.2016 – MAY.2017
CONVIASA | AIRLINES/AVIATION – China Shenyang
I studied GIS and participated in the research, development and implementation of airplane landing and stationary coordinate recognition system.

IT DEVELOPER – MAR.2014 – NOV.2016
PACKAGINGBOX COMPANY 3D FUNCTION
I have completed 3D custome packaging box design function using three js .(Mailer box , Shipping box , Paper box, etc…)
I worked with php, C, C++ and was interested in Device development: GPS , CMS6 , CMS7 Intelligent traffic management System
